

Elevation 4

15239

Section 5

White arms

Wall mimics art deco details of the roller gate and helps to hide pivots and fixings for the lift arms

White paint

Electric blue rams

Stairs to level of screw walkways when screws are "down"

Walkway over fish pass

4.84 mAOD

Resting pool region

Details of upper flight of fish pass not shown in this section since the pass has a bend as it follows the shape of the bank

Flight length, slope and levels are the same as already approved by the EA

Resting pool is longer and larger than the prior design

15% slope  
Same length and levels as already approved

Fish pass is at very slight angle relative to the screws  
- fish pass parallels shore  
- screws parallel the roller gate
