SUMMARY OF CONDITIONS AND INFORMATIVES

CONDITIONS

INFORMATIVES

15/4560/ADV

St Mary's University, 268 Waldegrave Road, Twickenham, TW1 4SX

Proposal:

Replacement of engraved stone St Mary's College sign over main entrance with stone overcladding to match existing and 20mm deep brushed stainless steel lettering in relief stating "St Mary's University".

Site and Surrounding Area:

The application site comprises the education, residential and ancillary buildings to the university. The proposal relates to the main entrance to the east of the site located off Waldegrave Road.

Part of the site, to the south lies within the Waldegrave Park Conservation Area. The northwest section of the site lies adjacent to the Strawberry Hill Conservation Area.

The entrance building to which the application relates is designated as a Building of Townscape Merit. The Chapel is a Grade II listed building and the 'Chapel in the woods' and the entrance building connects through to the Grade I listed Strawberry Hill.

Relevant Planning History:

There is extensive history on the site, none of which is relevant to the application.

Public and other representations:

Urban Design Officers have been consulted and expressed concerns on the following basis:

- No details were provided of the overcladding of the existing stonework with new Portland stone slab and stainless steel letters.
- It appears that the new stonework would project forward beyond the existing brickwork, beam and coping which support it structurally and from the rain and elements.

No public representations have been made.

No requests have been received for the application to be seen by the planning committee.

Amendments:

Additional information was sought and provided with regard to the proposed dimensions and build-up of the sign. The Portland stone overcladding to match existing will have a build-up of 20mm deep. A section of the proposed sign was provided.

Main Development Plan Policies

National Planning Policy Framework

Development Management Plan Policy DM HD3, DM DC8,

Core Strategy Policy CP8

Professional comments

Key Planning Issues

The key planning issues to be considered under this application are the design, impact of the proposed advertisements in relation to the visual amenities of the nearby building of

townscape merit, the surrounding Conservation Area and the setting of the advertisement together with street scene and public safety issues.

Design

The Council's Planning Policy DM HD3 applies to any proposals for alterations to the entrance building.

Policy DM DC8 states the Council will exercise strict control over the design and siting of advertisement hoardings and other advertisements to ensure that the character of individual buildings and streets is not demonstrably harmed, having regard to the interests of amenity and public safety, including for disabled people, and highway safety.

The proposal is for a fascia sign with stainless steel lettering in relief stating "St Mary's University" overcladding the existing engraved stone. It is recognised that the proposed alterations to the lettering are valid in that the name over the main entrance should read St Mary's University.

The existing stone is flush with the entrance wall and the proposal is to overclad this with a new 2cm Portland stone slab. The steel lettering which has a depth of 4cm will be positioned on pins projecting approximately 1cm from the Portland stone slab, therefore the total build-up of the proposal has a projection of approximately 7cm. It is considered that this will be protected from weathering by the elements by the projecting coping above of approximately 9cm.

The proposal would be constructed of Portland stone backing with raised brushed stainless steel lettering. Materials are considered to reflect the existing sign and protect the character of the building of townscape merit and the surrounding area.

Amenity

Policy DM DC8 states the Council will exercise strict control over the design and siting of advertisement to ensure that the character of individual streets is not demonstrably harmed, having regard to the interests of amenity and public safety, including for disabled people and highway safety.

The sign has been designed to replace the existing in terms of style, scale, materials, and location. The proposed sign is considered to be modest and would not extend over or obscure features of the host building of townscape merit and would respect the proportions of the building and the street scene in this location. In view of the sitting and use, the proposal is therefore considered to have a neutral impact on the amenity of nearby occupants.

Illumination

The proposal will not be illuminated.

Highways and Public Safety

As the sign would be set within the site a significant distance from the site boundary, there will be no highways implications. Furthermore, given the height of the proposed sign above

ground level, the modest scale and design flush to the existing sign; there would be no significant adverse impact in terms of safety and visual intrusion within the site.

Summary

The proposal is not considered to be detrimental to the character, appearance or setting of the surrounding area or neighbouring buildings of townscape merit in general and is not foreseen to lead to an undue loss of public safety. The proposal is therefore compliant with the aims and objectives of the National Planning Policy Framework, the Core Strategy, policies DM HD3 and DM DC 8 of the Development Management Plan.

Recommendation: Approval subject to conditions.
