

Product Specification

Josta 2-tier High Capacity Rack

Description

The 2-tier racks are designed to get the maximum number of bikes into a limited space, in a safe, easy to use way. There are many unique features of the Josta racks, including the low, easy to use handles, the clever, patented way the bikes are held on the racks, and the general ease of use. They are also designed for a long, tough life of constant heavy use, with low maintenance. However, the most important factor is always Safety, and the Josta racks are very safe to use. This is a particularly important feature for heavy bikes.

Features

- Double the capacity of bicycle storage spaces
- Easy and safe to use
- Space efficient
- Flexible and adaptable
- Neat and organised
- Individual racking - one bike per space
- Low maintenance
- Patented gripping system holds bike securely
- Maximises cycle parking spaces
- BREEAM compliant
- Framework can be coloured in any standard RAL colour

Construction

This Rack is made from pre-galvanised and mild steel, the framework can be powder-coated in any RAL colour.

Dimensions

- A minimum headroom of 2600mm is required for maximum capacity.
- 300mm to any adjoining side wall.
- Minimum of 400mm centres (450mm recommended).
- Allow 2000mm for the rack itself, plus a minimum of 1700mm in front for access.
- The racks can also be installed from a central spine. For this option, please leave 2000mm for access on both sides. The 2-sided unit is then 3100mm wide.
- Racks can also be installed at a 45 or 55 degree angle to minimise space.

Optional (£POA)

- Duisburg legs (legs for concrete floor)
- Powder coated framework
