Application Reference: 17/2779/NMA

Address: HMP Latchmere House, Church Road, Ham, Richmond TW10 5HH

Delegated Report:

Site description:

The application site comprises a 3.6 hectare L shaped site located partially within the London Borough of Richmond and partially within the Royal Borough of Kingston upon Thames. The northern portion of the site forms part of the Ham Common Conservation Area including the three storey Latchmere House, an extensive former 19th century residential property which has been designated a BTM. The remainder of the site is predominately characterised by a number of low rise buildings interspersed by a hard court recreation area and surrounding by green amenity spaces. The site is a designated archaeological priority area and there are also a number of trees covered by TPOs.

The surrounding area is predominately residential comprising of 1930s post war 2-storey semi-detached and terraced family houses. Approximately 100m to the south of the site is the designated local shopping centre, Tudor Drive.

The existing vehicular access is at the north-west corner of the site is via Church Road. The existing access would have accommodated large service vehicles and staff car trips associated with the former prison use. Directly adjoining the northern boundary of the site is the wooded area of Ham Common, an area designated as MOL, Public Open Space and an Other Site of Nature Importance.

Relevant planning history:

The principle of the works was set under application 14/0451/FUL which was allowed on appeal on 03.07.2015. The inspector allowed *'Demolition of existing buildings, excluding Latchmere House. Provision of 42 residential units (Use Class C3) comprising 35 new build units and the conversion and ground floor extension of Latchmere House to provide 7 apartments. Associated highways works, landscaping, tree works and car parking. Cross-boundary application also comprising land within the Royal Borough of Kingston upon Thames and providing in total 73 residential units including 66 new build units and 7 apartments within the converted and extended Latchmere House'*.

Application 16/0523/VRC sought to vary condition 2 (approved drawings) of planning permission 14/0451/FUL. The planning committee resolved to approve the application on 23.3.2016 and the application was granted on 18.04.2016.

Application 17/0687/NMA was for a non-material amendment to planning permission 17/2779/VRC regarding the amendment of condition U30492 - NS04 relating to the wording all hard surfaces shall be made of porous materials was granted on 27.10.2017.

Application 17/2779/VRC sought to remove condition U05665 - NS09 (Formally condition 9 - Lifetime Homes Standards) of Planning Permission 16/0523/VRC. The application was approved under delegated authority on 20.09.2017. As this is the most recently approved permission, this is considered the most relevant in the assessment of this application for non-material amendment.

Proposal:

This application originally sought permission for a non-material amendment to planning permission 16/0523/VRC. Application ref. 17/2779/VRC was the most

recent permission for HMP Latchmere House and therefore to ensure this application refers to the most recently approved permission, the applicant provided an amended application form on the 4.12. 2017 and the description of development was amended to:

'Non Material Amendment to Planning Permission 17/2779/VRC (Removal of condition U05665 - NS09 (Formally condition 9 - Lifetime Homes Standards) of Planning Permission 16/0523/VRC) Amendments to include internal amendments to revise housing mix in Latchmere House and changes to the south west elevation'.

Public Representations:

No public representations have been received. No requests made for the application to be heard by the Planning Committee.

Further Information:

On 14th December 2017 the applicant provided the following further information:

- Email from Anna Stott to Sarah Mako
- Residential standards report
- Proposed ground floor plan drawing no. BKH04-P-231 Rev 01

On 9th February 2018 the applicant provided the following further information in response to queries about viability:

- Viability Statement, dated 5th February 2018 prepared by Berkeleys
- Appendix A to Viability Statement prepared by Berkeleys.

Professional Comments:

Further to the approval of application ref. 17/2779/VRC, the applicant wishes to apply for the Council's determination as to whether the detailed alterations are considered to be non-material.

The applicant has advised that *'The intention of the revised design is to optimise the use of the large reception rooms on the Ground Floor. The original application was for seven flats; three on the Ground Floor, two on the First Floor and two on the Second Floor. The revised design proposes to keep the two Second Floor flats but use the Ground and First Floor to provide 4 duplex apartments and one Ground Floor Apartment'.*

The following amendments are proposed:

- Five of the apartments will have a direct connection with ground floor (creation of four duplex units over ground and first floors)
- All principal reception rooms can be used as living rooms and not bedrooms
- The lift is no longer necessary, as only the two second floor units are accessed from above ground floor
- Loss of a family sized unit (3 bed, 6 person) and the inclusion of a small unit (1 bed, 2 person)
- External alterations as a result of the proposed internal alterations:
 - Proposed right side elevation
 - The provision of a porch and new door at ground floor
 - Removal of window and re-siting of door at first floor
 - Removal of window at second floor

The guidance on 'Greater Flexibility for Planning Permissions Guidance' states there is no statutory definition of 'non-material'. This is because it is dependent on the context of the overall scheme – what may be non-material in one context may be

material in another. Each non-material amendment request is considered on its merits. The Local Planning Authority (LPA) must be satisfied that the amendment being sought is non-material in order to grant an application under section 96A of the Town and Country Planning Act 1990.

The LPA, in deciding whether a change is material, must have regard to the effect of the change, together with any previous changes made under this section, on the planning permission as originally granted. The LPA has the ability to impose new conditions and remove or alter existing conditions.

Condition U30490 – NS02 (Formally condition 2) on permission 17/2779/VRC states: *'The development hereby permitted shall be carried out other than in accordance with the following approved plans:*

- o House Type F1 BKH04-P-208 01
- o House Type E2 BKH04-P-207 02
- o House Type E1 BKH04-P-206 02
- o House Type D1 BKH04-P-205 02
- o House Type B4 BKH04-P-201 01 (Referenced as BKH04-P-203 01 in drawing schedule)
- o House Type B3 BKH04-P-201 01 (Referenced as BKH04-P-202 01 in drawing schedule)
- o Roof Plan Sheet 1 BKH04-P-117 01
- o Second floor sheet 1 BKH04-P-115 01
- o First floor sheet 1 BKH04-P-113 01
- o Ground floor sheet 1 BKH04-P-111 01
- o Elevations BKH04-P-104 02

- o Site sections - sheet 1 BKH04-P-102 02
- o Site Plan BKH04-P-101 03
- o Letter from Berkeley dated 11 February 2016
- o Letter from Indigo dated 12 November 2015
- o Bin Store BKH04-P-237 01
- o Refuse Strategy Plan BKH04-P-301 02

- o Indigo document - Amendments to dwellings and landscape 'Minor Material Amendment' February 2016.
- o Masterplan - Richmond 07.3a
- o Deed of Modification under Section 106A of the Town and Country Planning Act 1990 dated 18 April 2016
- o Letter from Helle Dorrington (Berkeley Homes) dated and received 20 July 2017.

And those which have not been superseded by the above, as outlined in:

- o Drawing Transmittal Sheet BKH04, Issue No 003, dated 10 January 2014; supplemented by the Schedule of Amended drawings dated 31 December 2014 submitted with the appeal (CDs 8.1 and 8.3); and Section 106 Legal Agreement dated 13 May 2015. (Associated to application 14/0451/FUL)

REASON: To ensure a satisfactory form of development'.

Residential standards

The application specifically relates to the development and conversion of Latchmere House to residential. The proposal would result in the loss of a three bed, six person family sized unit (originally approved) and is proposed to be replaced with a one bed,

two person unit. Whilst it would normally be expected that family sized units would be provided in an out of town centre location such as this, based on the overall development which would provide 42 residential units including a mix of 2, 3, 4 and 5 bed units, there would be no objection to one, one bed unit and the overall mix of units would generally be in accordance with policy including The Latchmere House and HM Remand Centre Planning Brief (2013) and Site Allocations Plan Site HP1.

The applicant has provided a report to show that revised internal arrangement would ensure most of the units would exceed the internal space standards in accordance with policies DM HO 4, LP 35 and the Residential Standards SPD. The further submitted details show two bedrooms would not comply with the required internal standards. The revised layout is to minimise the internal rearrangement of the historic building and ensure that the living areas are located in the largest and most appealing spaces. In this instance, the reduced bedroom sizes are acceptable and in any case are outweighed by the living spaces which exceed the space requirements.

In respect of paragraph 4.2.11 of the Residential Standards SPD, the room arrangement of the rearranged units is generally compliant with the guidance. Although the living areas of the proposed second floor units would sit above bedrooms of the duplex units below, this was deemed acceptable under the parent permission and therefore no objection is raised in this instance.

Buildings should be able to be accessed and used by all and in this instance the Council applies the optional higher Building Regulations Part M for inclusive access for residential developments. The Building regulations M4(1) requirements are the default and are applied to conversions and this is therefore applicable to the Latchmere House conversion.

It is considered that the proposed rearrangement of the units in Latchmere House and the overall mix of units are acceptable and would result in a good standard of living conditions for future occupiers.

Design and character

As a result of the internal arrangements, some external alterations are proposed in the proposed south-west elevation including the provision of a porch and new door at ground floor, removal of a window and re-siting of a door at first floor and removal of a window at second floor. The proposed new openings and porch would be of an appropriate style, design and character that would be sympathetic and sensitive to the character and appearance of Latchmere House which is designated as a Building of Townscape Merit. Little details have been provided regarding proposed materials; however, it is expected that these would be submitted as part of an application to discharge condition U30492 – NS04 (Formally condition 4) on permission 17/2779/VRC.

Affordable housing

Whilst it is acknowledged that there is no increase in floorspace, the application proposed significant alterations to the internal layout and changes the majority of the units from single storey flats to duplex units for the purposes of improving the marketability. As a result of this, officers requested evidence to demonstrate this does not improve the sales values and therefore the viability of the development.

Evidence was provided by the applicant on 9th February 2018 which has been reviewed by the Council's Planning Viability Advisor. The applicant's evidence states that sale prices have fallen significantly since February 2016. The Planning Viability Advisor has pointed out that Land Registry House Price Data shows that the HPI

index increased by 2.36% for all properties and 3.38% for flats and maisonettes between February 2016 and December 2017.

In addition, the applicant's evidence also refers to an increase in build costs and a slower sales rate as having a negative effect on viability. The Planning Viability Advisor states BCIS all price tender index suggests an increase of 16.7% in the same time period. While work procured February 2016 would not be expected to have increased to the full percentage suggested by the index it is indicative of build costs rising faster than prices.

Therefore, given that the overall area of accommodation is stated as remaining the same, it is reasonable to assume that overall the proposed changes are unlikely to result in a significantly increased surplus that could generate a further affordable housing contribution. In light of the review of their evidence, Council officers are satisfied that in terms of the overall viability, the changes to the proposed mix and layout of units do not need to be assessed further to scope whether any additional affordable housing contribution can be made. There is no change to the on-site affordable housing allowed under the original permission or the contribution of £50,000 secured by legal agreement under permission 16/0523/VRC above the existing heads of terms.

Conclusion

The proposal would constitute a non-material amendment for the following reasons;

- The proposal alterations would not be significant in terms of the overall scale in relation to the original approval and housing provision;
- The proposed alterations would not appear noticeably different to what interested parties may have envisaged and would not result in an impact on the amenity of existing occupiers of adjoining properties or future occupiers of properties within the development;
- The interests of no third party or body who participated in or were informed of the original decision would not be disadvantaged in any way. During notification of the original permission, few public representations made reference to the reuse of Latchmere House. English Heritage had raised no objection to the alterations to Latchmere House on the original permission;
- The amendment would be generally consistent with the Council's planning policy including the Planning Brief for the site.

Given the above, condition U30490 – NS02 (Formally condition 2) on permission 17/2779/VRC shall be varied to state (additional wording is underlined):

The development hereby permitted shall be carried out other than in accordance with the following approved plans:

- o House Type F1 BKH04-P-208 01
- o House Type E2 BKH04-P-207 02
