

## Comment on a planning application

### Application Details

**Application:** 18/0549/FUL

**Address:** Chalkers Corner Junction At Junction Of Lower Richmond Rd South Circ And Clifford Avenue Richmond

**Proposal:** APPLICATION C: Reconfiguration of Chalkers Corner traffic junction, to include existing public highway and existing landscaped and informal parking area associated to Chertsey Court, to facilitate alterations to lane configuration, a new cycle lane, works to existing pedestrian and cycle crossing, soft landscaping and replacement boundary treatment to Chertsey Court.

### Comments Made By

**Name:** Dr Justin Woolley

**Address:** 38 Eastbourne Gardens East Sheen London SW14 7NH

### Comments

**Type of comment:** Object to the proposal

**Comment:** The proposal would lead to more lanes of traffic to allow greater car use of this junction.

Pollution will increase at this area.

The cycle lane is very poorly designed. It leaves cyclists amongst multiple lanes of traffic with no clear direction or protection after leaving the junction.

There is a loss of green space for parking.

In a world where obesity and inactivity is rising making it the second ranked cause for cancer. Where the UK has the most obese children in Europe and the least active. Where air pollution is a significant risk to health and lives. This proposal is for drivers not the health of the residents or children attending school.

Please consider protected cycle lanes linked up with routes to the school. Please consider more walking space.
