Comments

Type of comment: Object to the proposal

Comment: This proposal involves removing the trees from the corner of Chalkers Corner. These trees are essential to the environment and the removal of harmful pollution. The configuration of the junction is not going to make the slightest difference to the traffic - Lower Richmond Road can not cope at the moment - there is always queueing traffic from Mortlake Green to Chalkers Corner and with this new development it will be 100% worse whether the junction is configured or not. Living the other side of Chalkers Corner I dread to imagine how long it is going to take to get home through East Sheen on either the Lower or Upper Richmond Road with all the additional traffic. The development needs to be scaled down.
