

## Comment on a planning application

### Application Details

**Application:** 18/0549/FUL

**Address:** Chalkers Corner Junction At Junction Of Lower Richmond Rd South Circ And Clifford Avenue Richmond

**Proposal:** APPLICATION C: Reconfiguration of Chalkers Corner traffic junction, to include existing public highway and existing landscaped and informal parking area associated to Chertsey Court, to facilitate alterations to lane configuration, a new cycle lane, works to existing pedestrian and cycle crossing, soft landscaping and replacement boundary treatment to Chertsey Court.

### Comments Made By

**Name:** Miss Geraldine Cox

**Address:** 52 Chertsey Court Clifford Avenue East Sheen London SW14 7RD

### Comments

**Type of comment:** Object to the proposal

**Comment:** Chalkers Corner is already one of the most polluted junctions in S W London. Air toxins are more than 50 per cent above the legal limit. The plan proposes to increase the already noxious air fumes and noise putting the health of our children and elderly residents at greater risk this is inexcusable. There is also the increased risk of crossing the roads for our children and elderly and several families already suffer from pollution related conditions.

A bottle neck of traffic would be created outside Chertsey Court as the traffic has no where to go due to the Sheen Lane crossing and the road size of Mortlake High Street leading into the narrow streets of Barnes.

The figure of 9,500+ annual deaths in London from poor air quality should be reduced not increased.

Chalkers Corner is already an Air Quality Focus Area.

Most of Chertsey Court residents are social housing tenants given the tragic example of Grenfell Tower, I wonder if this awful plan would even have been considered if the estate had been an affluent one and I urge the council to take into account the human rights of the already disadvantaged residents of Chertsey

Court.
