

## Comment on a planning application

### Application Details

**Application:** 18/0549/FUL

**Address:** Chalkers Corner Junction At Junction Of Lower Richmond Rd South Circ And Clifford Avenue Richmond

**Proposal:** APPLICATION C: Reconfiguration of Chalkers Corner traffic junction, to include existing public highway and existing landscaped and informal parking area associated to Chertsey Court, to facilitate alterations to lane configuration, a new cycle lane, works to existing pedestrian and cycle crossing, soft landscaping and replacement boundary treatment to Chertsey Court.

### Comments Made By

**Name:** Ms Fiona Murray

**Address:** 53 St Leonards Road East Sheen London SW14 7NQ

### Comments

**Type of comment:** Object to the proposal

**Comment:** have lived in this area for nearly 20 years and I am concerned about the impact of this proposed scheme.

The proposed traffic changes at Chalker's Corner will not do enough to deal with the increase in traffic the proposed development will bring.

1. The overall density of the site is too much for the infrastructure of our area.
2. Traffic is already heavy around the site, particularly around Mortlake High Street and Chalker's Corner. At the moment the area frequently has long jams at rush hours and any local event or road closure causes gridlock. The impact of hundred smore vehicles would be too much.
3. Air Pollution is a worry. This can only be worsened by more traffic, more traffic jams and more idling vehicles.
4. There appears to have been little joined up thinking about how public transport can accommodate a significant population rise - the 209 bus route may be reduced; Mortlake Station is already heavily used

and trains are usually full at peak times; the level crossing contributes to traffic jams and pollution caused by idling vehicles.
