Type of comment: Object to the proposal

Comment: I am a Chertsey Court resident. The increase of traffic generated from the envisioned increase of population in Application A and the school in plan B will adversely alter the health and wellbeing of residents of Chertsey Court and nearby areas. Chalkers Corner is already overused by road traffic resulting in heavy pollution; the trees and green space afford some protection in addition to the general amenity value. The proposed "wall" to prevent pollution will not work. Extra lanes to the road will encourage more traffic and not alleviate the generated problems.

Many of the residences in Chertsey Court are social housing. Given the minimal approach to affordable housing in the new development (application A) it seems that it is intended that those least able to afford it will pay for the development with their health and wellbeing.
