Comments

Type of comment: Object to the proposal

Comment: Chalkers Corner is the most polluted point in the borough, constantly exceeding EU limits. This proposal moves the traffic nearer to the long suffering residents of Chertsey Court and removes a high quality, green woodland buffer. With the increased access to pollution they will also no doubt feel the rumbling of passing lorries. According to the developers own papers the pollution absorption qualities of the new planting planned for the remaining strip cannot be quantified.

Any benefits to the areas current perpetual gridlock would be wiped out by attracting additional traffic even before the huge traffic increase arising from the proposed massive Stag Brewery Development.
