Comments

Type of comment: Object to the proposal

Comment: I don't believe the Chalkers Corner reconfiguration proposed will do anything to alleviate the congestion that we currently experience locally given the increase in traffic the development will bring to an area already crippled by traffic and poorly managed train timetables where barriers are down for too long and too often. The development needs more by way of transport planning than this. Nobody will be able to get to the facilities you are building if the whole area is gridlocked!!
