Type of comment: Object to the proposal

Comment: Communication has been non-existent on this planning application. Given the detrimental impact on space, noise, traffic, pollution beyond acceptable levels & ultimately safety the application is poorly considered and a hazard.

It appears the council are seeking investment from the developers & therefore making compromise on behalf of the residents at Chertsey Court where Council tenants have little say & lease holders are the minority.

With regards the view on traffic impact it is not truly represented. The traffic monitoring was completed during a bank holiday which is clearly not a reflection of a normal working day & was done in a way to manipulate the output.

Personally I would suffer from the noise, traffic congestion and pollution. I'm unable to leave the windows open on my flat as it gets full of dirty dust which worryingly is what I inhale at night. Removing the

mature trees which are used by local wildlife & offer some protection from the busy main road pollution is unacceptable. It would appear the Council are prioritizing profit over residents well being & public safety.
