Comments

Type of comment: Object to the proposal

Comment: The loss of trees and green space will have a significant impact on the residents of Chertsey Court and along the Lower Richmond Road. Air pollution is already high at this junction (above EU limits) and changing this one small area will have no impact on the problems elsewhere in the traffic system, for example at the bottom of Sheen Lane, where traffic backs up anyway owing to the level crossing and the volume of traffic in the area. We should be preserving green space, not eradicating it; improving the environment for residents in light of the significant health problems caused by pollution, and not destroying it.
