Comments

Type of comment: Object to the proposal

Comment: I am a local resident and am objecting to this application as part of the wider Brewery site redevelopment scheme. There is limited transport benefit and will not resolve the massive additional congestion which will result from the overly dense scheme which is proposed. I am objecting because of the increased poor air quality and pollution which will be created by the increased traffic generation; it already exceeds EU pollution limits. There will be increased noise and disturbance. The proposed scheme also means the loss of 'Other Open Land of Townscape Importance' (OOLTI) protected land contravenes planning policy and the loss of mature trees.
