**Comment:** I fully support the objections raised in the template letter from local people. I have emailed my objections in full to [stagbreweryredevelopment@richmond.gov.uk](mailto:stagbreweryredevelopment@richmond.gov.uk)  
This proposal is little more than a tinkering with a serious problem and lacks the context of a strategic approach to a serious and widespread problem. The suggestion this proposal would be effective in alleviating pressure with current traffic levels is utterly unconvincing let alone in the light of the additional pressure that would obviously come with the proposed development of the Stage brewery site. At the very least there needs to be another bridge over the railway in the near vicinity to take the pressure off of Clifford Avenue.
