### Comments

**Type of comment:** Object to the proposal

**Comment:** This junction can't cope with the current traffic flow and perhaps this proposal would help ease that situation but as the solution for the massively increased traffic that would come from the development of the Stag Brewery, it is completely inadequate. For a development that is bordered by the river, the railway and the A316, the proposed increase in traffic will cause complete gridlock with the residents of Mortlake suffering from increased levels of pollution endangering their health as well as the inability to travel freely around their home area.
