Comment: The proposals to widen the road at Chalkers Corner will result in the loss of mature trees and green space around a residential area.

It will also bring traffic closer to the residents of Chertsey Court. The traffic at this junction is already heavy — bringing it closer to the flats will increase noise and pollution in people's homes. Those people living in flats closest to the junction won't be able to open their windows in summer without breathing in traffic fumes and having their home lives disrupted by the noise.

While a cycle lane is to be welcomed, there shouldn't be a need to destroy mature trees to create it.
