### Comments

**Type of comment:** Object to the proposal

**Comment:** I object to the proposal as I am not at all convinced that the developments outlined would be at all adequate to meet the significant traffic increase into the area. Moreover, I am very concerned about the above average levels of pollution already negatively impacting the area, particularly as a mother of two young children. Surely, there must be a way to lobby for a better more far reaching solution such as tunnels as per central London.
