

Dear Wendy,

In relation to Schedule 2 paragraph 7.1 of the Section 106 Agreement – Public Art, which states that;

“Prior to the Commencement Date in Respect of the College Development Zone the College shall submit to the Council details of the proposals for the delivery of Public Art for approval (not to be unreasonably withheld) to include illustrations and an implementation programme. “

Please find below, proposals for the provision of Public Art within the College Development zone.

The proposal is primarily to use artwork produced by Richmond Upon Thames College Students and secondly through displaying the work of local, up and coming artists. The College will decide which art will be displayed through an internal vote, which will allow both Staff and Students to vote on which art work should be displayed.

Appendix 1 identifies the areas where art will be displayed. The proposed external area is in the heart of the College grounds in the entrance to the College site. This will enable the College to display art from a multitude of Students and local artists at the same time. It will allow for the art to be viewed and interpreted from different angles, thus giving the Students an external break out space. As this area is pedestrianised it will allow the art to be incorporated into the architecture and external landscaping.

The internal College Gallery sits on the fourth floor of the College, next to the Student Art Studio, Textiles workshop and Printmaking Classroom. This is in the centre for Art in the College and is proposed to be open to the public for the majority of the year. This will enable the College to display the art work of its Students to the public. Again, an internal vote run by the College will determined what is displayed.

The first piece of artwork that will be displayed in the proposed External Area for Public Art will be displayed in March 2020 following completion of the College Phase one Building. It is proposed for the art displayed in both areas to change at the start of each College year.

Proposed Art Implementation Plan:

Main College Building Proposed Construction Completion	Jan 2020
Art Installed in Proposed External area & College Gallery	March 2020

Kind Regards

Robin Ghurbhurun
CEO & Principal
