Comment: I strongly support the new proposals for the restoration of Marble Hill House and Park. Having attended both the symposia on the historic and natural landscape I consider the case for conserving and enhancing it is well made, based on archaeological and literary research. This is the key house and landscape of the Arcadian Thames and of the development of the English Landscape Movement, and we are immensely fortunate to have the opportunity to restore the house, recreate its context and to have immeasurably improved and free access to it.
