Application: 18/2977/FUL

Dear Sir/madam

I am very pleased that English Heritage will be able to do extensive repairs to Marble Hill House, and the stables block.

I am also pleased with the new plan for a cafe in the stables. This seems to be excellent and very suitable for this site.

However the plans for the development of the park. I see no evidence that there ever was a flower garden - None is shown in the 18 prints. There were only trees planted between the house and the river. There was a large vegetable <sup>garden</sup> away from the house. Might this be re-instated & provide vegetables

for the café?

Yours sincerely

Felicity Wakefield
