

## LBRUT SUSTAINABLE CONSTRUCTION CHECKLIST

TO BE FILLED IN FOR ALL RESIDENTIAL DEVELOPMENT PROVIDING ONE OR MORE NEW RESIDENTIAL UNITS, AND ALL OTHER FORMS OF DEVELOPMENT PROVIDING 100sqm OR MORE OF NON-RESIDENTIAL DEVELOPMENT

## ALL OTHER CLASSES OF DEVELOPMENT ARE ENCOURAGED TO COMPLY WITH THIS CHECKLIST

This document forms part of the Sustainable Construction Checklist SPD, and **should be read in conjunction with the associated Guidance Document.** Where further information is requested, please either fill in the relevant section, or refer to the document where this information may be found in detail, e.g. Flood Risk Assessment or similar. Scores will be awarded for different achievements on site, and a final score attributed to the site as a whole.

Property Name (if relevant):	129-147 Kingswa	/ Yard	Application No. (if known):	
Development Type				
Address (include. postcode)	129-147, Kingswa	y Yard, Mortlake, SW14 7HN		
Completed by:				
MINIMUM POLICY COMPLIANCE				
	Pleas	e check the Sustainable Construction webpage for the	e policy requirements	
Environmental Rating of develop	ment:			
Residential new-build		Rating achieved

Energy Assessment (Please see .	Justification & Guid	ance document for more details on how to prepare an En	neray Assessment)	
			g from energy efficiency and renewable energy measures,	
		heating systems. Has this been submitted? If yes, please		☑
morading and readibility of Oriff 7001	and community	realing eyeleme. Fide the been submitted: If yes, piedel	, uon	
Carbon Dioxide emissions reduct	tion (Please see J	ustification & Guidance document for more details on hov	v to calculate these figures as part of the Energy Assessment)	
<ul> <li>Percentage of total site CO<sub>2</sub> e</li> </ul>	missions saved th	ough renewable energy installation?	15.8	
<ul> <li>Percentage of regulated CO<sub>2</sub></li> </ul>	emissions saved b	elow Building Regulations target level through all low car	bon measures? 41	

1. ENERGY USE AND POLLUTION	
1.1 Need for Cooling	Score
How does the development incorporate cooling measures? Tick all that apply:	_
<ul> <li>Energy efficient design incorporating specific heat demand to less than or equal to 15 kWh/sqm</li> </ul>	6 🛚
<ul> <li>Reduce heat entering a building through providing/improving insulation and living roofs and walls</li> </ul>	2 🗹
Reduce heat entering a building through shading	3 □
Exposed thermal mass and high ceilings	4 🔲
Passive ventilation	3 ☑
Mechanical ventilation with heat recovery	1 📙
Active cooling systems, i.e. Air Conditioning Unit     Heat Generation	<i>o</i> □
1.2 Heat Generation  How have the heating and cooling systems, with preference to the heating system hierarchy, been selected (defined in London Plan policy 4A.6)? Tick the	heating and
cooling system that will be used in the development:	ricating and
Connect to existing CCHP/CHP networks	6 🗆
Site-wide CCHP/CHP powered by renewable energy	5 🗆
Gas-fired CCHP/CHP	4 🗆
<ul> <li>Communal heating/cooling powered by renewable energy</li> </ul>	3 🗖
Communal heating/cooling powered by gas	2 🗖
<ul> <li>Individual heating/cooling powered by renewable energy</li> </ul>	1 🗹
<ul> <li>Individual heating/cooling powered by gas or electricity</li> </ul>	<b>0</b> ✓
<ul> <li>1.3 Pollution: Air, Noise and Light</li> <li>a. Does the development plan to implement reduction strategies for dust emissions from construction sites?</li> </ul>	2 🗹
b. Does the development plan to include a biomass boiler?	- 🗆
If yes, please refer to the biomass guidelines for the Borough of Richmond, and see guidance for	
supplementary information. If the proposed boiler is of a qualifying size, you may need to complete the	- 🗆
information request form found on the Richmond websit	
c. Please tick only one option below	۰.۵
<ul> <li>Has the development taken measures to reduce existing noise and enhance the existing soundscape of the site?</li> <li>Has the development taken care to not create any new noise generation/transmission issues in its intended</li> </ul>	3 ☑ 1 ☑
<ul> <li>nas trie development taken care to not create any new noise generation/transmission issues in its intended</li> </ul>	1 🗹
d. Has the development taken measures to reduce light pollution impacts on character, residential amenity and biodiversity?	<b>3</b> 🗸
e. Have you attached a Lighting Pollution Report?	- 🗆
	Subtotal 1
Please give any additional relevant comments to the Energy Use and Pollution Section below	oubtota.

b. Does your development involve the removal of any tree(s)? (Tick if yes)  • If so, has a tree report been provided in support of your application? (Tick if yes)  c. Does your development plan to add any tree(s) on site? (Tick if yes)  d. Please indicate which features and/or habitats that your development will incorporate to improve on site biodiversity:  • Pond, reedbed or extensive native planting • An extensive green roof • An intensive green roof • An intensive green roof • A brown roof • A brown roof • Garden space • Additional native and/or wildlife friendly planting to peripheral	ANSPORT			
b. For major developments ONLY: Has a Transport Assessment been produced for your development based on TfL's Best Practice Guidance?  • If you have provided a Transport Assessment as part of your planning application, please tick here and move to Section 3 of this Checklist.  5 C. 4 FLOODING AND DRAINAGE	
4.1 Reducing and mitigating the risks of flooding and other impacts of climate change in the borough a. Is your site located in an area at risk of flooding? (Tick if yes)	. 🗆
If yes, please tick only ONE option below:  New development in a high flood risk zone (3a)  New development in a medium flood risk zone (2)  Redevelopment of an existing building or conversion	-2
Is your development within 20 metres of a watercourse or a flood defence? (Tick if yes)	- 🗆
Have you submitted a Flood Risk Assessment? (Tick if yes)	- 🗆
b. Which of the following measures of the drainage hierarchy are incorporated onto your site? (tick all that apple Store rainwater for later use  • Use of infiltration techniques such as porous surfacing materials to allow dr  • Attenuate rainwater in ponds or open water features  • Store rainwater in tanks for gradual release to a watercourse  • Discharge rainwater directly to watercourse  • Discharge rainwater to surface water drain  • Discharge rainwater to combined sewer	5 ☑
Please give the change in area of permeable surfacing which will result from your development proposal:     Please provide details of the permeable surfacing below  Please give any additional relevant comments to the Flooding and Drainage Section below	please represent a loss in permeable area as a negative number  Subtotal 6.0
r rease give any additional relevant comments to the ribbbling and Drahlage Section below	

5 IMPROVING RESOURCE EFFICIENCY	
5.1 Reduce waste generated and amount disposed of by landfill though increasing level of re-use and recycling a. Will demolition be required on your site prior to construction?  • Will 10% of demolition waste or more be reused in the new development?  • Will 15% of demolition waste or more be recycled?	0   1   1
<ul> <li>b. Does your site have any contaminated land or has the site previously been used for potentially contaminating uses?</li> <li>• Have you submitted an assessment of the site contamination?</li> <li>• Are plans in place to remediate the contamination?</li> <li>• Have you submitted a remediation plan?</li> </ul>	1
c. Are plans in place to include composting on site?	1 🗆
5.2 Reducing levels of water waste a. Will the following measures of water conservation be incorporated into the development? (Please tick all that apply):  • Fitting of water efficient taps, shower heads, dual flush toilets etc  • Use of water efficient A or B rated appliances  • Rainwater harvesting for internal use  • Greywater systems  • Fit a water meter	1
<ul> <li>b. What is the water consumption target of the development (in litres per person per day?)</li> <li>• The recommended target for conversions or other small scale residential properties is 105 litres/person/day. Will this be met? (Indicate if yes)</li> </ul>	105
c. If applicable, have you submitted evidence that capacity exists in the public sewerage and water supply network?	Subtotal 5.0
Please give any additional relevant comments, including reasons why the water consumption target has not been met should this be the case, to the Improving Resource Efficiency Section below	

<b>DESIGN STANDARDS AND A</b>	ICCESSIBILITY			
Ensure flexible adaptable and	d long torm use of structu	roc		
			al Design Standards SPD for internal space and layout?	1 🗹
			provide details of the functionality of the internal space and layout.	
ı				
If the development is residen	tial, will it meet the criteria	included in the Lifetime Home	Standards?	2 🗹
•		riteria are to be met, in the spa	ce below, please provide details of any accessibility measures incl	luded in the
	development.			
	Are 10% or more of the un	its in the development wheelch	nair accessible?	1 🗹
				_
If the development is non-res	idential does it comply wit	th requirements included in Pic	chmond's Design for Maximum Access SPG?	2 🗆
			cified in the Maximum Access SPG that will be	2 🗖
	included in the developme	nt
