Comments

Type of comment: Object to the proposal

Comment: I have reviewed the plans submitted around this proposal and am concerned that the plans are not in keeping with the surrounding urban environment and therefore damage the visual amenity. In particular in the way the proposed buildings will tower over and overlook neighboring residential properties.

More generally, I am concerned about the wider impact of such a dense development which is not in keeping with the surrounding streets and the lack of parking. I understand the properties will not have access to the CPZ but that there is potential for this to be relaxed in future which would have significant impact on the ability of local residents to find adequate parking given the limited parking included in within the development proposals.
