Comments

Type of comment: Object to the proposal

Comment: I am in general support of the proposal but have concerns over the following:

- Density of the site and car parking. Already a tough challenge in our area for parking.
- Community space - there should be more land incorporated for children to be able to play and be outdoors, especially with the limited garden space available in the development.
- Use of the river and interactions with the site - this should be improved and the sustainability of the development is currently being under-considered. How does this development interact with the already good work happening locally to improve the the Crane river for biodiversity?
