Comments

Type of comment: Object to the proposal

Comment: On behalf of the Friends of Twickenham Green I am writing to object to the proposal. One of the association's aims is:

'To encourage throughout the conservation area and its immediate environs high standards of architecture, civic design and town planning'.

We consider that the proposed development will impact upon the conservation area and its immediate environs.

Our reasons for this are as follows:

1. Increased traffic, both during and after construction. Heavy vehicles and exhaust emissions will increase pollution in the area immediately abutting the conservation area as well as within it.
2. Lack of parking spaces will increase the traffic on local roads within the conservation area.
3. Lack of play facilities for children on the development. Twickenham Green itself is accessible only by crossing the busy Staines Road, and therefore is not a suitable option.
