Comment: While I am in favour of the development of the old Greggs site on Edwin Rd, Twickenham, I am not in favour of the plans that have been submitted. If the council has a desire to foster community spirit, a surefire way to put an end to that desire is to let this planning application in it's current guise, through. There seems to be a powerful desire on the part of the developers to cram in as many people as possible into any development without any thought of the consequences. Why should they care? They shouldn't, they're business people but in this instance, they should care, not just about the residents that live here already, some of whom have been here more than thirty years, but the potential residents they are creating for. I appreciate they need to make a profit but not at the expense of the people they are purportedly attempting to serve. Planners, please bear this in mind when considering your decision.
