Type of comment: Object to the proposal

Comment: As a resident on Gould Road I am very concerned about certain aspects of the proposal. A) traffic generation & B) adequacy of parking on the site. Gould road is a narrow side road which has only just received permit parking to reduce over parking by non residence and if 2 cars block the way it's bad enough without additional residents of this number and 2+ years of large construction vehicles with no turning circles in such a small space and sharp corner and there is not adequate parking on the proposed site + if/when they become eligible for permit parking any benefits will be lost with no additional parking space available. This is the route for me and my partner to drive to Twickenham station and then onto the A316 C) layout and density of the building- 326 residents plus commercial (and poss more residential if commercial letting not successful) very little play area basically too many people and cars in one small area or too many for a small tightly packed area of Twickenham. Kind regards Mike Clarke
