**Subject:** 19/0646/FUL - objection to planning application

Dear Sir/Madam,

I live at 5 Gould Road and I vehemently object to this proposed development primarily on the grounds of significant traffic generation during the construction phase, and further the increase in traffic once construction is complete. The increase in congestion, increase in pollution, and decreased ability to park will make local residents lives hell and must not be allowed to happen. This is an area with a large number of young families and this will affect the health and lifestyle of young and old alike. Furthermore, I also object on the grounds of the height of the development, which is out of character for the area and would result in appalling loss of privacy for current residents. Furthermore, I object on the grounds of a lack of parking once construction is complete with less than 1 space per unit and the inevitable impact this would have on local parking and congestion. Furthermore, I object on the basis that this development does not fit into the character of the area and shows no sign of benefitting the local community (no additional community space and no effort to truly open up the river Crane). This development must NOT be allowed to go ahead as it stands, and the concerns of residents MUST be taken into account.

Kind regards,

Henry Clive  
5 Gould Road
