Comments

Type of comment: Object to the proposal

Comment: The Height of the Development, in parts 5-storey is very out of character in an area that is 99% 2 storey. This application would dwarf our homes and introduce privacy and overlooking issues.

The density of the development is unreasonable and there is a the impact of an overly dense urban area with an insulting lack of consideration for the impact on local area and services. CHildrens playground space is pathetic in the proposal and very in adequate.

There is zero community benefit to the existing residents and there is inadequate parking provision nor an adjustment to the surrounding roads and the increased traffic.

This development in no way reflects the relevant planning policies and fails to match or sit appropriately within the local context.
