Comments

Type of comment: Object to the proposal

Comment: The height of the development is out of character to the surrounding area. The density of the development is too large and will have a huge impact on local amenities and services which are already at stretching point. The parking is inadequate for the planned density and will have a huge impact on surrounding streets. There is no plan in the development to open up the River Crane corridor which has been a requirement of other recent developments which bank the river Crane
