Type of comment: Object to the proposal

Comment: Re 19/0646/ Full: Please reduce height of the big buildings. The loss of light and sky and privacy will make the area undesirable. I object to increased population density of small unattractive flats condensed into high rise and small houses. This will create additional over dense pollution in the local area, traffic danger and queues, parking problems, strain on public services, crowds, knife crime/unsafe overpopulation. I want the area to become more desirable and to be improved by opening up the River Crane Valley creating a nature walkway/ bridge. If you build less more expensive houses well designed larger houses it would make the area more desirable and valuable regarding house prices especially when improving the green and river park/walks in the vicinity to all. We want more respect for Green Nature Spaces to combat Climate Change and to support Nature and to keep Twickenham Green and Safe!
