Type of comment: Object to the proposal

Comment: My family has lived in this area for over 19 years and over that period of time the traffic and infrastructure of the area has reached a critical level resulting in a significant decline in quality of life. The indefinite closure of Hammersmith Bridge has only further compounded an intolerable situation for both local residents and visitors to the area heading for Kew Gardens and Richmond Park. In Barnes, East Sheen and Richmond roads have become gridlocked resulting in poor air quality resulting in a significant number of people including children being diagnosed with asthma. This proposed redevelopment together with another proposed development on the Homebase site of Richmond will only serve to further impact on residents and visitors quality of life.
