Comments

Type of comment: Object to the proposal

Comment: We have too much traffic here already, councils around the UK and countries around the world are declaring a climate emergency - we should be leading the way in encouraging shared transport, a brilliant public transport infrastructure. Show other councils how this should be done.

Any work here should be purely to benefit those who live here, not travel through it. The aim should be to discourage transport from heading through here.

Please think of the residents, our local area and the environment in which we live and upon which we depend.

Thank you
