Type of comment: Object to the proposal

Comment: While this work is in progress there will be a huge impact on the amount of queuing traffic on the Lower Mortlake Road and Mortlake High Street which is already generating very high levels of pollution due to the closure of Hammersmith Bridge. West bound cars and lorries are already queuing all the way along Mortlake high Street and there is no escape for traffic because of the level crossings on Sheen Lane and White Hart Lane. The trucks involved in this major development will significantly add to the weight of traffic, and work on the roads and junctions cause greater tail backs increasing pollution. It must not take place until Hammersmith Bridge is reopened and traffic can seek an alternative route
