Comments

Type of comment: Object to the proposal

Comment: This is a very busy junction and the proposal is not going to go anywhere near far enough to alleviate the extra traffic that will result from the proposed development of the site on ship lane. The other direction from this site is the level crossing in Sheen lane. This is already closed for long periods on a busy line. Chertsey court will no longer be as insulated from the lanes of traffic and there will be more.. The traffic going north along Clifford avenue is already at breaking point. This proposal will result in taking even longer to go north from here at the light at Chalkers corner. This will increase the back up on the upper Richmond road through Sheen, already a huge problem.
