Comments

Type of comment: Object to the proposal

Comment: The revised proposals, which should be designed to mitigate the traffic effects of the the huge development proposals, are likely to lead to no decrease in traffic density. The proposals will lead to the loss of OOLTI land serving as a buffer between residents and an already traffic congested corner, serving to increase pollution and visual intrusion to residents of Chertsey Court.. The only sensible solution is to reduce the size of the development and use resources which would be ineffectively used under the current proposals towards affordable housing.
