Comment: We object to the application.

The alteration and widening of roadway around Chalker's Corner, has not been thought through with sufficient care. The increase in traffic due to the development at Stag Brewery, will have a much greater impact on peak time travel than has been anticipated. Already the transport system is in dire straights, Hammersmith Bridge is closed and no alternate transport facilities have been set up other than re-routing certain bus routes which is adding to the congestion and worsening the air quality at this junction. A full area wide transport survey is need to access and determine actual increases in traffic flow, and a robust future proof proposal needs to be made as part of the SB development. In its current form the alterations to the junction will not be fit for purpose.
