Type of comment: Object to the proposal

Comment: This proposal is put forward to try and justify the proposed over development of the Brewery Site. This application should be refused because:

Part of the land being taken for road widening is OOLTI and should therefore be refused. We need to preserve our green spaces, not destroy them.

The effect on residents of Chertsey Court of removal of mature trees, even though some will be replaced, and bringing the road closer to the flats is unacceptable when there are already major concerns about the environmental impact of vehicles on human health.

Increasing capacity of the road will simply attract more vehicles, hardly environmentally friendly. The junction will have to be renamed to the more appropriate Chokers Corner if this application is granted. Richmond Council should be ashamed if it is.
