Comments

Type of comment: Object to the proposal

Comment: The proposals for Chalkers Corner are unacceptable, there has been no acknowledgement of the objections raised. The proposals show no consideration for the residents of Chertsey Court, they will lose the minimal protection they have from the traffic which will not just increase but also be nearer their homes. Protected land should be protected, we should not be cutting down mature trees both to protect the residents and to be mindful of the climate crisis. The cost and disruption this proposal would cause cannot be justified.

The closure of Hammersmith Bridge demonstrates that traffic flow is on a knife edge, we should be concentrating on lessening the number of cars on the roads, not widening roads at the expense of people's health and wellbeing.

We live in Mortlake, we know what it is like. This scheme is unacceptable. It will jeopardise the health and well being of the residents of Chertsey Court. It is unsustainable to introduce large numbers of cars to the neighbourhood.
