Type of comment: Object to the proposal

Comment: The amendments to the plan still do not really answer my objections to the plan. The height of the Development in parts is 5 stories ,in a mostly 2 story area. The development still has 116 residential units far too dense. There is no added community space , little play space and no real access to the River Crane. Even after the changes it will still bdlly affect public transport and services. Parking is still inadequate after spaces removed and no visitor parking. The surrounding streets are too busy all ready injecting all these potential vehicles will be dangerous on traffic volumes and pedestrians.

The lack of proper access to the Crane makes a mockery of the work all ready carried out to open up that way.
