Subject: Objection to the Stag Brewery redevelopment

From: Sandy Macfarlane, 52, Cowley Rd, SW14 8QB

I would like to register my objection to the current plans for the Stag Brewery. A. 18/0547/FUL B. 18/0458/FUL C. 18/0459/FUL

Firstly I find it unbelievable that any sort of development can be considered until the the problems created by the closure of Hammersmith Bridge have been resolved. It is already clear that the local infrastructure can't cope and the prospect of additional strain from the brewery development will make life in Barnes and Mortlake intolerable for the local residents.

I agree that in the fullness of time the brewery needs to be developed but not on the scale proposed. It's impossible to accept that the intended development won't have a significant impact on the quality of all our lives, particularly the detrimental effect on our health from the increased air pollution and the inevitable traffic congestion made worse by the surrounding level crossings. Traffic is already at a standstill and I do not believe that a few tweaks at Chalkers Corner will come close to solving the problem. As for the size of the school, it's no better than battery farming.

A low rise, less intensive development more in keeping with the area should be considered.
