Comments

Type of comment: Object to the proposal

Comment: The amendment to these plans still do not fully address the concerns raised originally. Including:

1. The height which is out of keeping with the area and will still cause privacy issues for some
2. The density of the development which will cause traffic issues in an already congested area that is highly populated with young families (causing a safety issue).
3. Parking has not been sufficiently addressed with the loss of 12 spaces from the scheme and no visitor parking. This will impact surrounding roads for neighbours on evenings and weekends. Also we would like to see commitment that if residents parking is ever introduced to the site, it will NOT impact nor ever be part of the current WT zone which was fought so long and hard for.
4. There is still little publicly accessible space other than additional walkway.
