Dear Sirs,

Former Stag Brewery Site Redevelopment Proposals

I am puzzled that the most recent proposals for this site should be so out of date. There is, obviously, gross overdevelopment of the site with too many people squashed into to small an area. If this goes ahead you will be piling up trouble; you will need a fully functioning police station and police presence, servicing shops, GP surgery, As the proposals stand they are awful and dangerous in an area that is at present peaceful.

With the closure of Hammersmith Bridge the whole area has become a giant traffic jam – even the local Mortlake Crematorium (serving SW London) are finding it difficult to cope.

Perhaps Planning Officers should go and have another look at the site rather than just looking at plans on paper.

It won't do. It really won't.

*Yours faithfully,*
