Comments

Type of comment: Object to the proposal

Comment: There is already a substantial lack of parking in the surrounding roads in the evenings and at weekends, especially outside the CPZ operating time. The fact that the plans show less than one parking space per property will have a massive impact on the local roads. The plans need to provide at least one parking space per property and additional provision for two car households and visitors. Promising that residents in the new development will be prevented from taking part in the CPZ will have no impact outside the operating time and will no doubt be short lived. The local roads are already used as a 'rat-run' to avoid the traffic lights in the Meadway and the additional traffic volume generated by such a large number of properties will cause further safety issues for pedestrians, especially children.
