### Comments

**Type of comment:** Object to the proposal

**Comment:** I object to the proposal because the parking provision has reduced (15 spaces have been removed). In addition there is no spaces provided for visitors and there is no certainty that the Council will not permit parking in CPZ WT in the future. The lack of parking for the development means that pollution will increase as cars look for alternative parking outside the development and this will return the local streets to a static car park where people fear to move their cars and neighbours develop their gardens and other spaces to provide car parking. This is simply a lack of understanding on behalf of the developer and hopefully the Council will require the developer to reduce density giving more space to parking. The proposed development is simply for profit and brings no benefit to the local community.
