**Subject:** Stag Brewery Mortlake

Good Morning

I have received the latest letter on the proposed development. I may have missed it in the bundle of papers presented with the application but can you please confirm whether there has been an independent review of the traffic issues resulting from the proposal?

Can you direct me to any studies within the papers that might be relevant - for example how many cars parking spaces have been allocated, how many 'drop offs' might be anticipated with the new school.

Thanks

Chris Thomas
