Dear Sir/Madam

I wish to register my comments/concerns on the above planning applications.

The Chalker's Corner junction is a total mess at present (made even worse by the long term closure of Hammersmith Bridge), and getting materially worse year on year. Whatever the plans for its re-configuration I do not see any way that it can cope with the additional traffic associated with the construction and long-term occupancy of 439 residences, plus a new school.

I therefore wish to object to the application on the grounds of traffic generation, highway safety, road access and noise/disturbance.

Kind regards

Andrew Miller
