Subject: Mortlake Brewery Development

326

Dear Sir or Madam

Please accept this email as my severe objection to the Mortlake Brewery Development for the following reasons:

- Increased traffic jams, bottle necks and level crossing hazards.
- Mortlake High Street to Chalker's Corner is always busy without an influx of additional residents in the area.
- 40% increase in local population in a very short space of time.
- 500 More vehicle trips in morning rush hour alone.
- Pollution nearly double the EU Target.
- New school with 1200 pupils but no new bus route or the extension of the Number 22.
- Loss of green spaces, including the brewery sports field –which is heavily utilised at the moment with local teams.

Regards

Clare Foster
