

9/7/18

700 SPACES <sup>261</sup> FOR THIS? INSANITY

RECEIVED

'Slag planning' a NO GO FOR US. Should NEVER have been sold.

17 III 2018

PLANNING Highways and Transport, <sup>NO FOREIGN DEVELOPERS</sup> please could you tell BLIGHT

GOOD me it any -> feasibility studies <sup>SPACE + PARKING</sup> have been done or has many cars

OFFICIAL ONES are likely to be generated by the Slag Planning Application. 800 (at least) (Not new families, a health hub, a school, 350 person cinema, offices, shops, cafes, restaurants. The visitors alone will blight our mobility - ability to MOVE!!)  
I see this proposal as truly

'insane' We are at capacity

NOW with traffic. Widening the road by Chalkers Corner will make no difference and cause blight by more pollution to the residents of Clebeys Court.

RECEIVED

PLANNING

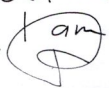

land should never ever !!! have been allowed to go to an overseas company, registered in tax haven, where the UK doesn't even benefit from their profits

in our local neighbourhood.

No one wants it. At all.

We need a Hospital NHS Truste  
(with Social Care Trust) and an  
A+E and disabled/elderly housing  
perhaps, some more green space on  
the riverside with one cafe.

We desperately need a hospital as  
being with Wandsworth it is too  
**big** a Trust to provide the  
services & care we need in  
Richmond and we are getting  
short changed. No quality of care.

We need to buy back the  
land and put a hospital for  
Richmond Residents. This can not  
go on. Residents are dying as  
there's not even a suicide prevention  
center (crisis/therapeutic). Please send me  
the traffic studies available. I am  
not online. Thank you Tricia Byrd
