Subject: FW: Mortlake Brewery Development Proposals

Hi Lucy and Kathryn,

Another resident's comments about the development forwarded below.

Thanks.

Best regards,
Cllr. Richard Warren
Liberal Democrat Councillor for North Richmond Ward
Member of the Environment, Sustainability, Culture and Sports Service Committee
Member of the Policy and Performance Review Board

Subject: Mortlake Brewery Development Proposals

Dear Councillors

I would like to add my voice in opposition to the proposals for the redevelopment of the Mortlake Brewery site.

I have lived in East Sheen for 40 years, and run a business in an adjoining borough. During this time I have witnessed the growth in the local population with the accompanying pressures on parking and vehicular access within the neighbourhood. The prospect of the addition of an estate as currently contemplated and the loss of green space represent a severe reduction in the quality of life in the borough, including the health risks resulting from an increase in pollution from the additional cars which will be travelling to and from the site, both carrying residents of the site and children attending the school.

A redevelopment which would provide for recreational facilities in an enhanced open space would serve the local community and maintain the quality of life we enjoy and appreciate would be a much better use of the Brewery premises.

I respectfully urge you to take these factors into account when considering which way to vote at tomorrow's meeting and for your conscience to be satisfied that you are accurately reflecting the views of those who entrusted you to represent them.

Yours sincerely

Helen Smart
